DETAILED ACTION

Drawings

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the culottes and skirt must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

The disclosure is objected to because of the following informalities: The "Brief Description" and "The Detailed Description" must include reference to drawings which are to be added to show the culottes and skirt.

Appropriate correction is required.

Claim Objections

Claim1 is objected to because of the following informalities: In claim 1, line 17 and 20 "its" is not necessary and in line 18 in regard to "sewing together" it is not clear as to what "sewing together" refers since it is already stated that the elastic is "sewn"..
Appropriate correction is required. Claims 1-5 are allowable upon the submission of the above corrections to show the culottes and skirt.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
